

PhilNITS

Philippine National IT Standards Foundation website.

Customer name: Philippine National IT Standards Foundation

Type of project: Website Re-Design and Content Migration

Background: Philippine National IT Standards Foundation, PhilNITS, is a recognized National IT Professional Proficiency Exam by the Department of Trade and Industry (DTI) of the Philippines. It is formerly known as JITSE Foundation.

Project description: The project aims to increase awareness about PhilNITS Foundation activities and programs to its partners, sponsors and to provide an easy to update/maintain and easy to use information portal for PhilNITS employees and its examinees.

Summary of Services Rendered by Spiceworx:

- Consultation in web site conceptualization and contents creation.
- Overall design of the website's look and feel and placement of all contents.

Technology applied: DreamWeaver, Flash, Photoshop, and Illustrator are also used to design the web pages.

Project completion date: May 05, 2005 Project duration: 1.2 mos
