

## IT Human Resource Training Needs Study for CICC

Appointed by Center of the International Cooperation for Computerization (CICC) of Japan, SpiceWorx conducted a study on professional IT Human Resource Training needs in the Philippines. SpiceWorx designed the survey questionnaire, conducted survey among Philippine based software companies, compiled the survey result and delivered analysis report to CICC. Findings from the survey will be used as valuable inputs to the formulation of CICC's future plans on IT Human Resource development assistance (particularly training) for Asia. Questionnaire designed by SpiceWorx was used in the similar surveys in other countries in Asia.
