

## State of e-Learning in the Philippines

SpiceWorx successfully delivered a study on the state of e-Learning in the Philippines to Center of the International Cooperation for Computerization (CICC) in Japan. SpiceWorx conducted extensive interviews with various stockholders of e-learning in the Philippines including government agencies, academe and private sectors. The study covered major E-Learning initiatives by the Philippine government, policies concerning e-learning, e-learning case studies in universities/colleges in the Philippines as well as other training institutions and many other e-learning related projects being undertaken in the Philippines.
